

AF80

Gas Furnaces — Mid-Efficiency

Flexible, efficient gas furnaces that fit almost any application and offer a good value in the coldest environments.

Efficiency:

80.0% AFUE

Warranty:

20-year limited—heat exchanger

5-year limited—parts

Capacity:

1-1/2 to 5-ton

50,000–125,000 BTUH

AF80 Gas Furnaces

- 80.0% AFUE
- Heating size range 50,000–125,000 Btuh
- 1-1/2- to 5-ton cooling capacity
- Crimp-Tite aluminized steel heat exchanger with 20-year limited warranty; 5-year limited warranty on components (see warranty certificate for details)
- Three-speed blower motor
- Heavy-gauge, pre-painted cabinet provides corrosion protection
- Time Delay/Off for A/C SEER enhancement
- Electronic air cleaner, humidifier and continuous fan connections
- Multi-position for upflow, counterflow or horizontal applications
- Troubleshooting is fast and accurate with interruption-immune diagnostics and diagnostic sleeve
- Integrated furnace control with diagnostics and 115V HSI system
- Run-tested at the factory to ensure reliable performance
- Vertical venting or horizontal with power venter
- Five amp fused low voltage circuit protection
- Common LP kit for all Aire-Flo gas furnaces
- Twinning compatible
- Certified to ANSI and CSA standards

Saves energy for real value

When the unforgiving winter season bears down, your family deserves a furnace that provides reliable, absolute warmth and comfort. That's why we engineered the Aire-Flo™ AF80 mid-efficiency gas furnace with robust components, providing energy savings even during the months of heavy use. The AF80 offers value and performance that will put your mind at ease.

Designed for quiet operation

Individual balancing of each blower wheel to each furnace and Aire-Flo whisper-quiet burners all contribute to uncommonly quiet operation and consistent comfort. Also contributing to the quiet operation is the premium insulation in each Aire-Flo furnace.

Built to last

Durable Crimp-Tite™ aluminized steel heat exchanger resists corrosion with crimped seams for a leak-free seal that's more reliable than conventional welding. The hot surface ignition system provides reliable, efficient heat when you need it, with no more pilot lights to re-ignite.

Overall Dimensions

Model Number	Length (inches)	Width (inches)	Height (inches)
AF80MPA050B3	29-1/2	13-1/2	38-1/4
AF80MPA075B3	29-1/2	13-1/2	38-1/4
AF80MPA075B4	29-1/2	17	38-1/4
AF80MPA100B4	29-1/2	17	38-1/4
AF80MPA100B5	29-1/2	20-1/2	38-1/4
AF80MPA125B5	29-1/2	20-1/2	38-1/4

For Upflow, Counterflow or Horizontal Applications

Due to our policy of continuous improvement, specifications are subject to change without notice.
